Education

- | | |
|---|-------------------------------------|
| PhD University of Warwick , Computer Science | Coventry, UK
Oct 2025 – present |
| <ul style="list-style-type: none"> Fully funded by an EPSRC Doctoral Scholarship Supervisor: Prof. Long Tran-Thanh Research focus: AI safety and alignment for large language models | |
| MSc Toyo University , Computer Science | Tokyo, Japan
Apr 2022 – Apr 2024 |
| <ul style="list-style-type: none"> Supervisors: Prof. Shugo Nakamura (main) and Prof. Hirotada Honda Research focus: graph neural networks, Transformers and applications of machine learning | |
| BSc Toyo University , Computer Science and Engineering | Tokyo, Japan
Apr 2018 – Mar 2022 |
| <ul style="list-style-type: none"> Full-ride scholarship CGPA: 4.17/4.3 (summa cum laude) | |

Experience

- | | |
|---|---|
| FPT AI Center , Machine Learning Researcher | Tokyo, Japan
Jan 2022 – Sept 2025
3 years 9 months |
| <ul style="list-style-type: none"> Designed and developed features for a large-scale traffic flow simulation project, using Physics-Informed Neural Networks (PINNs) to address complex urban planning challenges. Inspired by the Kuramoto model from physics, developed a framework that bridges computational physics and deep learning to mitigate oversmoothing in graph neural networks, achieving state-of-the-art results; presented at AISTATS 2024. Optimised algorithms for a long-term demand forecasting project for a leading pharmaceutical company in Vietnam, leading to a 10% reduction in stockouts and significant revenue growth. | |
| Aimesoft JSC , Machine Learning Researcher | Remote, Vietnam
Apr 2020 – May 2021
1 year 2 months |
| <ul style="list-style-type: none"> Improved multimodal fake-news detection by 4% over baselines using BERT and VGG19. Implemented BM25 retrieval with BERT for Vietnamese legal text processing. | |
| Tokyo Techies , Machine Learning Intern | Tokyo, Japan
Feb 2020 – Aug 2021
1 year 7 months |
| <ul style="list-style-type: none"> Deployed deep learning on edge devices for facial recognition in a productivity project, reaching 80% accuracy even with masks and cutting day-long video inference time to 5 hours. | |

Scholarships

- **EPSRC Doctoral Scholarship**, University of Warwick: full tuition and stipend for 3.5 years
- **Full-ride Scholarship**, Toyo University: full tuition and stipend for 4 years

Awards and Competitions

- **Excellent Master's Thesis Award**, Toyo University, 2024
- **Best Presentation Award**, IEEE RIVF, 2021
- **Second Prize**, Automated Legal Question Answering Competition (ALQAC), 2021
- **Outstanding Solution**, VLSP ReINTEL Challenge, 2020
- **Top 29 of 356 teams**, Shopee Code League, Sentiment Analysis, 2020
- **Top 39 of 300 teams**, SIGNATE Student Cup, House Price Prediction, 2019
- **Third Prize**, Vietnam National University Programming Contest, 2015 (exempt from university entrance exam)
- **Silver Prize**, Coastal and Northern Vietnam Student Programming Contest, 2015
- **Bronze Prize**, HSGS Olympiad in Competitive Programming, 2015
